

COIL DEFENDER

Filter Protect

Filter Protect is a migrating antimicrobial which when sprayed on filters will stop colonisation on the fibres and extend the useful life of the filter.

FEATURES

- Safe to use on all filter types
- No Odour
- Easy to use
- Stops colonisation of the filter by bacteria, mould and fungus
- Safe non-toxic antimicrobial

BENEFITS

- No specialised or heavy application equipment required
- Easy to apply directly on filters
- Multiple applications from restaurants to hotel rooms
- Improves indoor air quality
- Reduces energy consumption

COIL DEFENDER Related Products

Enzyme Coil Cleaner is a safe environmentally friendly concentrated cleaner specially formulated for HVAC and Refrigeration Coils. The formulation digests oil, dirt and biological contamination and can be safely washed down the drain

Pan Tablets are a slow release anti-microbial which are placed in the evaporator tray to stop slime growth blocking drain lines. The tablet lasts for 12 months and is replaced when the Coil Protect is reapplied.

Coil Protect is a product applied to cooling and heating coils to stop mould and bacteria growing on the coils. It is applied to clean, dry coils and leaves a thin surface coating which stops microbial growth. The coating is applied every 12 months.

DIRECTIONS FOR USE

- Apply to clean or new filters
- Apply light spray evenly to the air on side of the filter
- Allow filter to dry before reinstalling (less than 5 minutes)
- Can be applied to 10 filter bags or 10 sqm of filter face
