

FABRIC

Microbe-X fabric offers a lightweight and highly launderable filament fiber construction. The polyester yarns are treated with an active antimicrobial which controls the growth and transmission of harmful bacteria, fungi, and molds that can be found in food processing and other critical environments.

- Commonly used alternative to exposed single wall duct/diffusers
- Air is able to pass through the fabric with the airflow rate controlled by the fabric weave and the internal static pressure
- Airflow can be delivered exclusively through the porous fabric or can be combined with various venting options to achieve desired airflow
- Antimicrobial agent (up to 30 washes)
- Machine washable

FABRIC SPECIFICATIONS

Weave:	Fire Retardant Polyester Filament/Filament Twill
Weight:	6.2 oz/yd ² (210g/m ²) up to 6.9 oz/yd ² (234g/m ²)
Porosity:	6, 13, 29 CFM/ft ² @ 0.5" w.g (30.5, 66, 147L/s/m ² @ 125Pa)
Codes:	Classified by Underwriters Laboratories in accordance with the requirements of: • NFPA 90A • UL 2518

COLOR OPTIONS

WHITE

CUSTOM

* Note: Colors may vary. No two dye lots are the exact same color.

* Custom colors available, but requires a premium charge and additional lead time.
