

FABRIC

Sedona-Xm premium grade fabric features an active antimicrobial agent incorporated into the fabric during the fabric manufacturing process long with a matte finish.

- Commonly used alternative to exposed single wall duct/diffusers
- Air is able to pass through the fabric with the airflow rate controlled by the fabric weave and the internal static pressure
- Airflow can be delivered exclusively through the porous fabric or can be combined with various venting options to achieve desired airflow
- Antimicrobial agent (up to 10 washes)
- Machine washable
