

FABRIC

Stat-X is a lightweight, air permeable, polyester based fabric designed for electrically-sensitive environments. It includes ESD (Electro Static Dissipative) yarns woven in a grid pattern approximately 1/4in x 1/4in to dissipate static buildup.

- Commonly used alternative to exposed single wall duct/diffusers
- Air is able to pass through the fabric with the airflow rate controlled by the fabric weave and the internal static pressure
- Airflow can be delivered exclusively through the porous fabric or can be combined with various venting options to achieve desired airflow
- Dissipates static buildup
- Machine washable

FABRIC SPECIFICATIONS

Weave:	Fire Retardant Polyester Interwoven ESD Yarns
Weight:	2.9 oz/yd ² (98g/m ²)
Porosity:	2.5 CFM/ft ² @ 0.5in w.g (2.7 L/s/m ² @ 125Pa)
Codes:	Classified by Underwriters Laboratories in accordance with the requirements of: <ul style="list-style-type: none">• NFPA 90A• UL 2518• UL-C (Canada)
